- React, Next.js, Express.js
- REST API, React Native, Flutter

Languages:

- Javascript/Typescript, Python, Java, C#

Cloud:

- AWS, Vercel, Azure

LLM:

- Bedrock, OpenRouter

BaaS:

- Appwrite, Firebase

Databases:

- PostgreSQL, MySQL, DynamoDB

DevOps and Tools:

- Docker, Kubernetes
- GitHub, GitLab

PROFILE

I am a junior Full-Stack Developer and an Engineering student in Computer Science at TUKE. While I work across the full stack, my main focus is backend development, building scalable architectures, cloud-native systems and secure authentication flows.

I'm not here to just fill a seat. I aim to deliver real value on real-world projects. Let's build something great together.

EDUCATION

- Technical University of Košice** SEP 2025 - PRESENT
Faculty of Electrical Engineering and Informatics
 - Engineer's Degree in Computer Science
- Technical University of Košice** SEP 2022 - JUNE 2025
Faculty of Electrical Engineering and Informatics
 - Bachelor's Degree in Computer Networks
- SPŠE Prešov** SEP 2018 - JUNE 2022
Electrical Engineering
 - Computer Systems
