- **Mobile:** React Native, Flutter
- **Languages:** Python, Javascript/TypeScript, Java
- **Cloud:** AWS, Vercel, Azure
- **LLM:** Bedrock, OpenRouter
- **BaaS:** Appwrite, Firebase
- **Databases:** PostgreSQL, MySQL, DynamoDB
- **Auth:** NextAuth.js, AWS Cognito, OAuth2/PKCE
- **DevOps:** Docker, Kubernetes

## PROFILE

I am a Full-stack Developer and a Master's student in Informatics at TUKE. While I work across the full stack, my main focus is backend development, building scalable architectures, cloud-native systems and secure authentication flows.

I'm not here to just fill a seat. I aim to deliver real value on real-world projects. Let's build something great together.

## WORK EXPERIENCE

- **CityEventScout | Live IT Projects** SEP 2025 - FEB 2026  
Department of Computers and Informatics, TUKE & Košice IT Valley
  - Automated event scraping and AI-powered system developed in collaboration with IBM.
- **Assistant Electrician** JUNE 2025 - AUG 2025  
G&F Elektro s. r. o.
  - Commercial (offices) electrical installations in Germany and Slovakia.
- **Assistant Electrician** JUNE 2024 - SEP 2024  
G&F Elektro s. r. o.
  - Residential and industrial electrical installations in Germany and Slovakia.
- **Assistant Electrician** JUNE 2023 - SEP 2023  
G&F Elektro s. r. o.
  - Residential electrical installations in Germany and Slovakia.
